<b>Agnitum</b> info@agnitum.com <a href="http://www.agnitum.com">http://www.agnitum.com</a>	Outpost Firewall Pro	\$40	A HIDS that detects and blocks Denial of Service (DoS) attacks; scanning detection can detect simple TCP and UDP port scanning and stealth scanning
<b>Computer Associates</b> 631-342-6000 800-243-9462 <a href="http://www.ca.com">http://www.ca.com</a>	eTrust Intrusion Detection 2.0	Contact vendor for pricing	A NIDS that provides protection including network session monitoring, Internet content blocking, keyword and malicious-content scanning, and defense against other network misuse events; provides high throughput performance for networks of any size
<b>Entercept Security Technologies</b> 408-467-4600 800-599-3200 <a href="http://www.entercept.com">http://www.entercept.com</a>	Entercept	\$1295 to \$1595 for the agent and \$4995 for the console	A HIDS that prevents and detects attacks; uses a combination of signatures and behavioral rules; safeguards the server, applications, and resources from known and unknown worms and buffer-overflow attacks; provides flexible levels of protection for varying enterprise environments; reduces false positives; protects customer data
<b>GFI Software</b> 919-388-3373 888-243-4329 <a href="http://www.gfi.com">http://www.gfi.com</a>	GFI LANguard Security Event Log Monitor 3.0	Starts at \$375 for 2 servers and 10 workstations	A HIDS that monitors the security event logs of all Windows XP, Windows 2000, and Windows NT servers and workstations on your network; alerts administrators in realtime about possible intrusions and attacks
<b>Internet Security Systems</b> 404-236-2600 888-901-7477 <a href="http://www.iss.net">http://www.iss.net</a>	RealSecure Network Sensor 7.0	\$8995 for one sensor, \$1799 for first-year maintenance	A NIDS that integrates RealSecure network intrusion detection and BlackICE technology; includes protocol analysis and anomaly detection combined with RealSecure's library of signature-based detection capabilities; supports networks as fast as Gigabit Ethernet
<b>NetIQ</b> 408-856-3000 888-323-6768 <a href="http://www.netiq.com">http://www.netiq.com</a>	Security Manager	\$900 per server	A HIDS that provides an advanced central security console for realtime security event monitoring and automated response capability, event-log consolidation, and security configuration management; collects and correlates events from firewalls, IDSs, and enterprise antivirus systems
<b>Network-1 Security Solutions</b> 781-522-3400 800-638-9751 <a href="http://www.network-1.com">http://www.network-1.com</a>	CyberwallPLUS	\$1295 for the server edition, \$43 per seat for 1000-seat deployments of the workstation edition, \$895 for the CyberwallPLUS Central Manager	A HIDS that prevents intrusions on Windows systems; actively detects and blocks unauthorized traffic from entering or leaving servers, desktops, and laptops; features fine-grained access control and stealth mode; CyberwallPLUS Central Manager utility provides centralized policy management
<b>Network Associates</b> 888-847-8766 <a href="http://www.mcafee-security.com">http://www.mcafee-security.com</a>	McAfee Desktop Firewall 7.5	\$34	A HIDS that provides firewall protection and intrusion detection for your desktop; guards against threats from internal and Internet intruders, malicious code, and silent attacks

Contact Information	Product Name	Price	Description
<b>OKENA</b> 781-209-3200 <a href="http://www.okena.com">http://www.okena.com</a>	OKENA StormWatch	Pricing starts at \$4995 for the management console, \$1800 for intelligent server agents, and \$85 for intelligent desktop agents	A HIDS that intercepts all system calls to file, network, COM, and registry resources and correlates behaviors of such system requests to make realtime allow or deny decisions; supports XP, Win2K, NT, and UNIX systems; scalable to 5000 intelligent agents manageable from one console
<b>PentaSafe Security Technologies</b> 713-523-1992 888-400-2834 <a href="http://www.pentasafe.com">http://www.pentasafe.com</a>	VigilEnt Intrusion Manager	Contact vendor for pricing	A HIDS that provides detection rules and customizable templates for detecting and correlating security events in realtime; lets you immediately respond to incidents and activate escalation procedures; archives logs and performs intrusion trend and forensic analysis; integrates with third-party devices; enforces security policies; correlates intrusion data at the enterprise level
<b>Privacyware.com</b> 732-212-8110 <a href="http://www.privacyware.com">http://www.privacyware.com</a>	Privatefirewall 3.0	\$30	A HIDS that combines a personal firewall and intrusion detection application to eliminate unauthorized access to your PC; lets advanced users create custom configurations; features packet filtering, port scanning, IP tracking, SecurePOP email protection, and Privacyware.com's Application Control Engine (ACE)
<b>Securify</b> 650-812-9400 888-439-2784 <a href="http://www.securify.com">http://www.securify.com</a>	SecurVantage	Starts at \$50,000	A NIDS that provides automated network security management; consists of an advanced environment for policy development and security analysis and a monitoring system to verify conformance to enterprise policies in realtime; scalable; lets administrators instantly identify network traffic that violates enterprise policy; ensures consistent network configuration with enterprise policy; provides information to resolve root cause of security problems
<b>Symantec</b> 408-517-8000 800-745-6054 <a href="http://www.symantec.com">http://www.symantec.com</a>	Symantec Host Intrusion Detection System 4.0	Agent is \$995 per server, manager is \$1995	A HIDS that detects unauthorized and malicious activity; alerts administrators and takes precautionary action to prevent information theft or loss
	Symantec ManHunt 2.1	Contact vendor for pricing	A NIDS that uses distributed sensors, protocol anomaly detection, and high-speed statistical analysis to perform advanced intrusion detection; identifies known and novel attacks even on high-speed Gigabit Ethernet networks; coordinates all threat-management activities across the enterprise
<b>WetStone Technologies</b> 607-756-6086 877-938-7866 <a href="http://www.wetstone-tech.com">http://www.wetstone-tech.com</a>	SMART Watch	\$299	A HIDS that performs file-change detection; provides a restoration tool that reacts in near-realtime without polling
