AdventNet http://www.adventnet.com 888-720-9500	OpManager	Starts at $795	Per user	**Alerts:** Device failure, CPU threshold violation, memory utilization threshold violation, disk utilization threshold violation, WAN link down, router availability, router health, switch availability, switch port down, Exchange availability, Exchange services down, AD down, AD services down, server availability, desktop availability **Notification Options:** SNMP traps, email, Short Message Service (SMS), system command	Live, daily/weekly/monthly/yearly, scheduled reports, email reports, PDF reports	No	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
	OpManager MSP	Starts at $4995	Per remote site	**Alerts:** Device failure, CPU threshold violation, memory utilization threshold violation, disk utilization threshold violation, WAN link down, router availability, router health, switch availability, switch port down, Exchange availability, Exchange services down, AD down, AD services down, server availability, desktop availability **Notification Options:** SNMP traps, email, SMS, system command	Live, daily/weekly/monthly/yearly, scheduled reports, email reports, PDF reports	No	No	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Aldebaran Systems http://www.serverassist.com 312-893-5480	ServerAssist	$375 per monitored server. Volume discounts available.	Agent license cost only. No extra costs for "packs", "extensions", or "clients".	**Alerts:** Thresholds, failures; anything you monitor can provide alerts. **Notification Options:** Email, SMS, network message, start/stop a service, run a script, run a program, log to application event log	Live—key indicators (memory, CPU load, disk space, failed services), memory info, disk info, event logs, performance charts, service listings, process listings for live. Historical—customized enterprise-wide data analysis.	Yes	Yes	Yes	Yes	No	Yes	Yes	No	No
Argent Software http://www.argent.com 860-674-1700	Argent Extended Technologies	Contact Argent for pricing.	Based on the number of servers and devices being monitored.	**Alerts:** Any application, server, device, or customer-determined thresholds of any data source including disk space, CPU utilization, SQL Server log sizes, Exchange and IIS usage. **Notification Options:** Pager, email, SMS	Live status and historical reporting	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Neon Software http://www.neon.com 925-283-9771 800-334-6366	LANsurveyor	$795	Install on one computer or server.	**Alerts:** Thresholds, failures, new connections **Notification Options:** Email, SNMP traps, sound file, SMS, log message	Live status, Excel reports	Yes	Yes	No	No	Yes	No	Yes	No	Yes
NETIKUS.NET http://www.netikus.net 312-624-7698 877-485-3975	EventSentry	Starts at $69 per server. Heartbeat-only licenses are also available.	Per server and per monitored network device.	**Alerts:** Thresholds, recurring events, host status changes, service/driver status change, disk space, application registers, environmental changes **Notification Options:** Email, RSS, pager, text file, SNMP traps, service control	Web reporting: server health, event log, performance data, disk space, installed software, temperature and humidity data	Yes	Yes	Yes	Yes	No	Yes	Yes	Yes	No
Network Instruments http://www.networkinstruments.com 800-526-7919	Expert Observer and Observer Suite	Starts at $2895 for Expert Observer.	The user can purchase an annual maintenance contract that provides telephone support, upgrades, and free quarterly upgrade CDs.	**Alerts:** Errors and bandwidth usage conditions, virus and attack signatures, and user-defined filter-based alarms. Alerts are grouped by the following types of conditions: threshold-based, non-threshold-based, errant-based, and security-based events. **Notification Options:** Pop-up message, print a trouble ticket, append entries to an event log, start a packet capture, execute a user-defined notification program (email or paging application)	Over 30 real-time statistics including overall network health, bandwidth utilization, and Internet, network, and application activity. Cross-mode drilldown for more granular reporting on specific applications, protocols, or users. Observer also provides long-term trending and reporting. Trending collects long-term data on Ethernet, Internet, WAN, Fibre Channel, Full-duplex gigabit, and wireless links, which can be stored and analyzed for days/weeks/months/years.
